VILLA MICHAELA

## Our history and surroundings

Villa Michaela, previously Villa Nottolini, and belonging to the Rhode family since 1985, is situated at the foot of the Zano mountain, only a short distance from the “pieve” of Vorno (Vorno Chapel).

The original building dates back to the 15th century, but through the years there have been many changes and the actual aspect of the Villa is that of the early 1800's when it was purchased by the Nottolini family.

In a peaceful rural area with no through traffic, the Villa is perfectly situated for those who love to be immersed in nature but also very convenient for exploring everything Tuscany has to offer.
